

AiBEN

THE ENTERPRISE INTELLIGENCE PLATFORM FROM DATA TO DECISIONS

AiBEN transforms data from multiple sources into trusted situational awareness and recommended actions.

Zero Hallucination AI
Every answer is grounded in verified data.

Full Traceability
Every insight links back to source data.

Edge AI
Deploy on-premise, private cloud, or edge environments.

Human-Readable Intelligence
Complex information converted into clear, actionable insights.

Enterprise Security
Security built for mission-critical operations.

HOW AiBEN WORKS

Our Enterprise Intelligence Layer

DATA SOURCES

1

Enterprise Systems

Databases & Files

Documents

Web & APIs

IoT & Devices

People & Teams

External Data

Connect to any data source across your organization and external ecosystem.

CONTEXT & INTEGRATION

2

Data Integration

Data Enrichment

Metadata & Taxonomy

Business Rules

Access Control

Data Quality

Combine and normalize data, apply context, rules, and security to create a trusted information foundation.

AI REASONING

3

Semantic Understanding

Pattern Recognition

Anomaly Detection

Predictive Analytics

Causal Analysis

Rules & Knowledge

AI analyzes and connects the dots to reveal what matters, why it matters, and what could happen.

SITUATIONAL AWARENESS

4

Real-time Monitoring

Status Overview

Risk Assessment

Impact Evaluation

Trend & Forecast

What's Happening

Understand the current situation, potential impact, and what is likely to happen next.

RECOMMENDED ACTIONS

5

Actionable Recommendations

Prioritization

Alerts & Notifications

Workflow Integration

Collaboration

Decision Support

Clear, prioritized recommendations so teams can act with confidence and speed.

OUR SOLUTIONS

Built on One Platform. Designed for Impact.

AiBEN Compass

Enterprise Intelligence Platform

Connect enterprise data, documents, operational systems, and AI to deliver trusted intelligence, situational awareness, and recommended actions.

LegalAI

Document Intelligence

Review, compare, summarize, verify, and assess contracts, regulations, and policies with full source traceability.

PortAI

Maritime Intelligence

Transform vessel operations, cargo information, documents, sensor data, and external events into real-time operational intelligence.

AiBEN Automate

Workflow Intelligence

Turn trusted intelligence into automated decisions, approvals, alerts, and enterprise workflows.

AiBEN Edge Box

Sovereign AI Infrastructure

Deploy trusted AI securely on-premise, in private cloud, or at the edge with complete control over enterprise data.

AiBEN API Suite

Enterprise Integration

Embed AiBEN intelligence into existing enterprise applications, business systems, and digital services through secure APIs.

TRUSTED INTELLIGENCE. BETTER DECISIONS.

AiBEN delivers the intelligence layer that turns data into meaningful actions, helping organizations operate safer, smarter, and more efficiently.

DEPLOY WHERE YOU NEED IT

Cloud

Private Cloud

On-Premise

Edge

Enterprise Security

Data Sovereignty

High Performance Low Latency

Modular & Scalable

AI THAT YOU CAN TRUST. INTELLIGENCE THAT YOU CAN ACT ON.
