

AiBEN

From Data to Situational Awareness The Enterprise Intelligence Layer

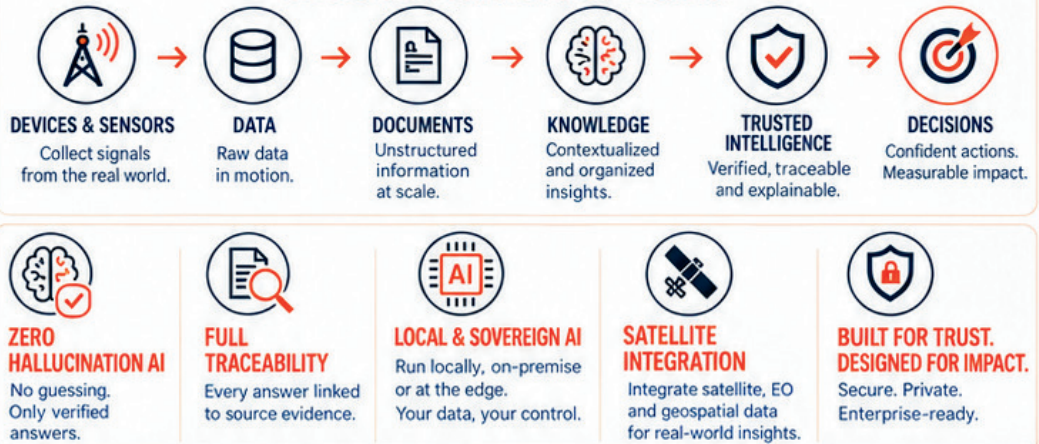

FROM DATA TO DECISIONS. FROM COMPLEXITY TO CLARITY.

AiBEN Compass enables organizations to move beyond information retrieval to operational intelligence — helping decision-makers understand what is happening, why it matters, and what actions should be considered next.

Designed for critical environments including healthcare, ports, logistics, defense, infrastructure, insurance, engineering, public sector, and industrial operations, Compass combines sovereign AI, edge computing, space-domain knowledge and traceable intelligence into a single platform.

THE JOURNEY: FROM DATA TO DECISION

ONE-PAGER

1. FRAGMENTED SYSTEMS & DATA

Many sources. No clear picture.

2. CONNECTED ENTERPRISE ARCHITECTURE

Unify data, knowledge and AI.

3. TRUSTED INTELLIGENCE & DECISION

From insight to real-world impact.

WHY IT MATTERS

AIBEN COMPASS SOLUTIONS

TENDERAI for Compliance
 AI-assisted tendering, procurement and regulatory compliance. Traceable, transparent and efficient.

PORTAI for Port Operations
 Port document automation and operational workflows. Safer, faster and more efficient operations.

PORTFLOW AI for Maritime Awareness
 Real-time maritime and logistics situational awareness. Integrating AIS, satellite and operational data.

AiBEN EDGE BOX
 Secure edge AI for on-premise and remote environments. Local inference with 67 INT8 TOPS.

COMPASS Enterprise Intelligence Layer
 Enterprise-wide intelligence and decision support. Bringing together operational, document, sensor, satellite and space data.

AI + SPACE POWERED INTELLIGENCE

**FROM DATA TO DECISIONS.
WITH TRUST IN EVERY STEP.**

AiBEN Compass transforms diverse data into trusted intelligence that powers confident, faster and better decisions — on land, at sea, in the air, in space and across society.
